Drug Class	Drug Name	Gram positive cocci		Gram negative bacilli		Gram negative cocci		Anaerobes				Atypicals
		Streptococci	MSSA	E. coli	P. mirabilis	N. meningitidis	Klebsiella		Pseudomonas	ESCAPPM	N. gonorrhoeae	
Penicillin	Benzylpenicillin											
Anti-staphylococcal per	Naficillin											
	Oxacillin											
	Flucloxacillin											
Aminopenicillins	Ampicillin											
	Amoxicillin											
Aminopenicillins with be	Amoxicillin-Clavulanic A											
	Ampicillin/Sulbactam											
	Piperacillin-Tazobactam											
1st-gen cephalosporin	Cefazolin											
	Cefalexin											
2nd-gen cephalosporin	Cephotetan											
	Cefoxitin											
3rd-gen cephalosporin	Ceftriaxone											
4th-gen cephalosporin	Ceftazidime											
	Cefepime											
Carbapenems	Ertapenem											
	Imipenem											
	Meropenem											
Monobactams	Aztreonam											

Quinolones	Ciprofloxacin						
	Levofloxacin						
	Moxifloxacin						
Aminoglycosides	Gentamicin						
	Tobramycin						
	Amikacin						
Macrolides	Azithromycin						
Lincosamide	Clindamycin						
Tetracyclines	Doxycycline						
Glycopeptides	Vancomycin						
Antimetabolite	Trimethoprim/Sulfameth						
Nitroimidazoles	Metronidazole
