Drug Class	Drug Name	Gram positive cocci	Gram positive cocci	Gram negative bacilli	Gram negative bacilli	Gram negative cocci	Gram negative bacilli	Anaerobes	Gram negative bacilli	Gram negative bacilli	Gram negative cocci	Atypicals
Drug Class	Drug Name	Streptococci	MSSA	E. coli	P. mirabilis	N. meningitidis	Klebsiella	Anaerobes	Pseudomonas	ESCAPPM	N. gonorrhoeae	Atypicals
Penicillin	Benzylpenicillin											
Anti-staphylococcal per	Naficillin											
Anti-staphylococcal per	Oxacillin											
Anti-staphylococcal per	Flucloxacillin											
Aminopenicillins	Ampicillin											
Aminopenicillins	Amoxicillin											
Aminopenicillins with be	Amoxicillin-Clavulanic A											
Aminopenicillins with be	Ampicillin/Sulbactam											
Aminopenicillins with be	Piperacillin-Tazobactam											
1st-gen cephalosporin	Cefazolin											
1st-gen cephalosporin	Cefalexin											
2nd-gen cephalosporin	Cephotetan											
2nd-gen cephalosporin	Cefoxitin											
3rd-gen cephalosporin	Ceftriaxone											
4th-gen cephalosporin	Ceftazidime											
4th-gen cephalosporin	Cefepime											
Carbapenems	Ertapenem											
Carbapenems	Imipenem											
Carbapenems	Meropenem											
Monobactams	Aztreonam											

Quinolones	Ciprofloxacin						
Quinolones	Levofloxacin						
Quinolones	Moxifloxacin						
Aminoglycosides	Gentamicin						
Aminoglycosides	Tobramycin						
Aminoglycosides	Amikacin						
Macrolides	Azithromycin						
Lincosamide	Clindamycin						
Tetracyclines	Doxycycline						
Glycopeptides	Vancomycin						
Antimetabolite	Trimethoprim/Sulfameth						
Nitroimidazoles	Metronidazole
