Drug Class	Drug Name	Gram positive cocci			Gram negative bacilli					Gram negative cocci		Anaerobes	Atypicals	David Name
		MRSA	MSSA	Streptococci	E. coli	P. mirabilis	Klebsiella	Pseudomonas	ESCAPPM	N. gonorrhoeae	N. meningitidis			Drug Name
Lincosamide	Clindamycin													Clindamycin
Tetracyclines	Doxycycline													Doxycycline
Glycopeptides	Vancomycin													Vancomycin
Antimetabolite	Trimethoprim/Sul													Trimethoprim/Sul
	famethoxazole													famethoxazole
Anti-staphylococ cal penicillins	Naficillin													Naficillin
	Oxacillin													Oxacillin
	Flucloxacillin													Flucloxacillin
	Amoxicillin-Clavu													Amoxicillin-Clavu
Aminopenicillins	lanic Acid													lanic Acid
with	Ampicillin/Sulbac													Ampicillin/Sulbac
beta-lactamase	tam													tam
inhibitors	Piperacillin-Tazo													Piperacillin-Tazo
	bactam													bactam
1st-gen	Cefazolin													Cefazolin
cephalosporin	Cefalexin													Cefalexin
2nd-gen	Cephotetan													Cephotetan
cephalosporin	Cefoxitin													Cefoxitin
3rd-gen	Ceftriaxone													Ceftriaxone
cephalosporin	Certifiaxone													Centilaxone
4th-gen	Cefepime													Cefepime
cephalosporin	Ceftazidime													Ceftazidime
	Ertapenem													Ertapenem
Carbapenems	Imipenem													Imipenem
	Meropenem													Meropenem
	Ciprofloxacin													Ciprofloxacin
Quinolones	Levofloxacin													Levofloxacin
	Moxifloxacin													Moxifloxacin
Macrolides	Azithromycin													Azithromycin
Penicillin	Benzylpenicillin													Benzylpenicillin
Aminopenicillins	Ampicillin													Ampicillin
	Amoxicillin													Amoxicillin
Monobactams	Aztreonam													Aztreonam
	Gentamicin													Gentamicin
Aminoglycosides	Tobramycin													Tobramycin
	Amikacin													Amikacin
Nitroimidazoles	Metronidazole													Metronidazole
